

Press Release ____, March 2015

APM Terminals Inland Services South Asia wins Excellence in Manufacturing Sector award – second year in a row at the Asia Manufacturing Supply Chain Summit 2015 (AMSCS)

- **APM Terminals Inland Services South Asia is a leading inland container logistics service provider in South Asia**
- **AMSCS is one of Asia’s largest supply chain conference for the manufacturing sector**

Mumbai, India - APM Terminals Inland Services, South Asia was recognized for 'Excellence in Inland Container Logistics for Manufacturing Sector' during the 4th edition of the Asia Manufacturing and Supply Chain Awards held in Mumbai on 18th February, 2015. This is the second year in a row where APM Terminals Inland Services has won this award.

Asia Manufacturing Supply Chain Summit - one of the largest dedicated manufacturing supply chain events in Asia, brings together supply chain leaders from across industry verticals and offers a platform to innovate, strategize and share best practices enabling the players to thrive and achieve success in an increasingly complex and challenging environment.

In a year of strained market conditions, wherein shipping lines and cargo owners faced pent up demand, APM Terminals Inland Services, South Asia recognized and supported the needs of the manufacturing sector and successfully delivered on the key aspects vital to development of the Indian logistics market.

"This award is extremely humbling and gratifying at the same time. Year after year our customers have shown confidence in us. I want to thank all the customers for their continued support and promise to continue to work towards assisting and supporting the manufacturing sector with quality service and enhanced safety levels.," **Mr. R. K. Sreedhar, Managing Director and CFO, APM Terminals India Pvt. Ltd.**
